ABSTRACT

People may need to move from one place to another as part of their work. The main challenge faced during this situation is a place to live. This is the main motivation behind the project "Dream Home".

Through this project we are developing a website, which contain a set house in different location and the user can either buy the house or take a house for rent.

The property owners is will first register into the site and can later upload there property. Then the users will register into the site and apply a date for site visit and later apply for documentation.

This project consist of 3 modules:

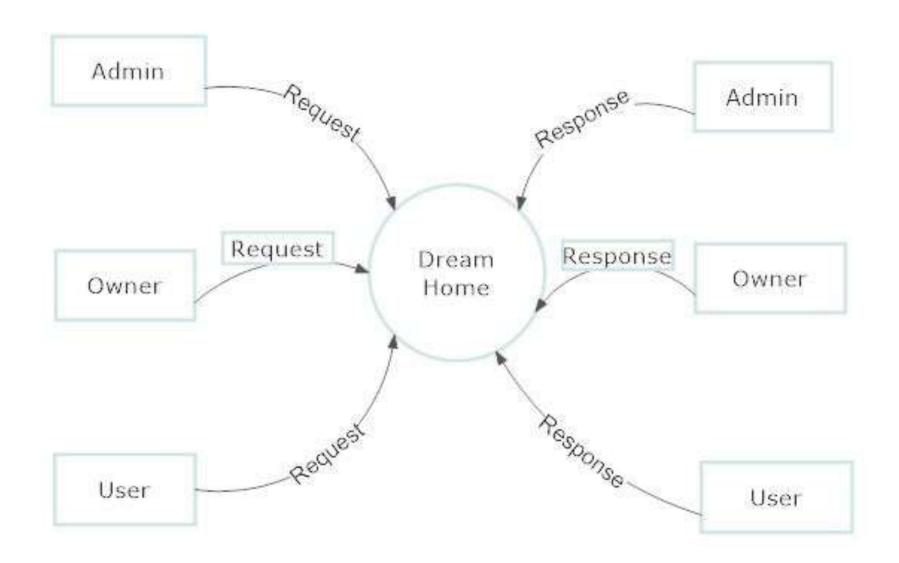

- 1. Admin: Admin has the over all control of the site.
- 2. Owner: property owners can upload their property into the site.
- 3. User: Users can view all the properties uploaded buy owners and can book a date for site visit.

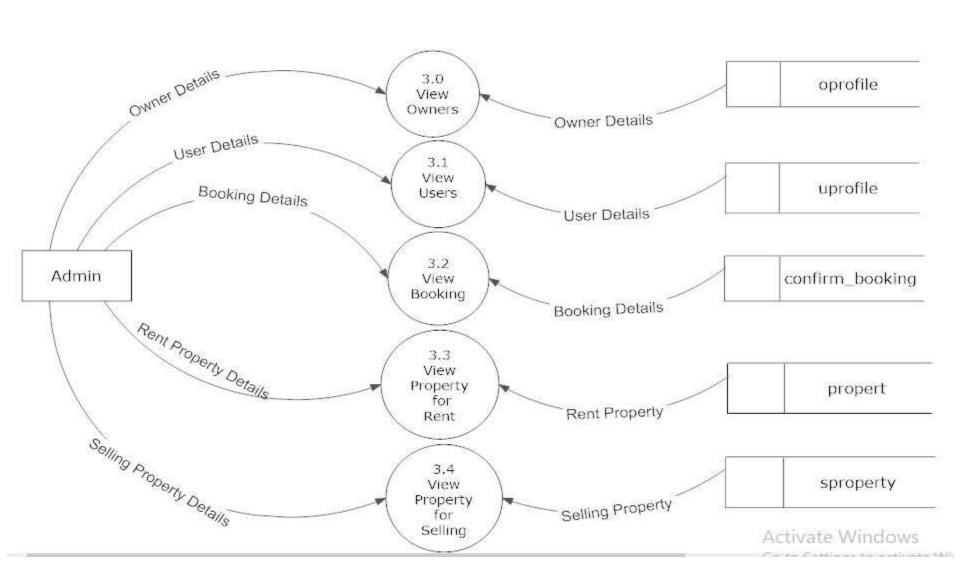

Registration	Login	Admin	Owner	User
Registration for admin and a Registration for user	Login for All Users and Owners	Manage Owner User	Manage Owner Activities	Manage User Activities
	Login for Login for Admin Login for User	View Report of property uploaded View Report of booking	Add Property for Rent Confirm Booking For Sile Visit	Booking For Rent Apply Profile
		View Report of View Report of users Registered	Edit Profile View Feedback	Add Edit Profile
		View Payment	Edit / Defete Property Add Profile	Booking For Selling Status
			Notification Edit Property for Rent	Notification Buying Status
			Add Property for Selling	
			Payment

LEVEL 1 DFD FOR OWNER

LEVEL 1 DFD FOR USER

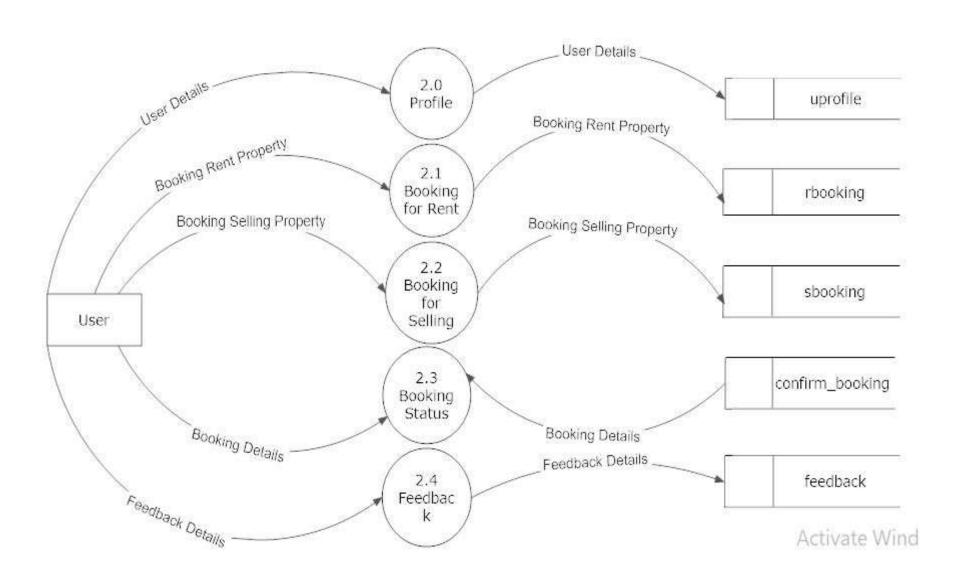

TABLE DESIGN

Table Name: User

Field	Data Type	Description
id	Integer	Id of Each User
Username	Character	Username of user
Email Address	Character	Email id of user
First Name	Character	First name of user
Last Name	Character	Last name of user

Primary key: id

Table Name : oprofile

Field	Data Type	Description
oid	Integer	Id of each Person
fname	character	First name of owner
email	character	Email id of owner
hname	character	House name of owner
Gender	Character	Gender of owner
Pname	Character	Place of owner
Dist	Character	District of owner
Tal	Character	Taluk of owner
Mob	Integer	Mobile number of owner
Username	Character	Username of owner

Primary key: oid

Table Name : uprofile

Field	Data Type	Description
uid	Integer	Id of Each Person
fname	character	First name of user
email	character	Email id of user
hname	character	House name of user
Place	character	Place of user
District	character	District of user
Taluk	Character	Taluk of user
Mobile	Integer	Mobile number of user
Username	Character	Username of user

Primary key: uid

Table Name: bank

Field	Data Type	Description
bid	Integer	Id of Each Bank
		Name of person doing payment
Owname	Character	
Cardno	Integer	Card number
Amounts	Integer	Amount to be payed
Verification	Integer	Verification number

Primary key: bid

Table Name: confirm_booking

Field	Data Type	Description
cid	Integer	Id of Each Booking
Ownername	Character	Name of owner
Customer	Character	Name of user
Cuname	Character	Username of user
Ppname	Character	Propertyname
Date	Date	Date for site visit
Expectedtime	Text	Expectedtime given by User for site visit
Time	Time	Time given by owner for Site visit
Status	Character	Status of booking
Username	Character	Username of owner

Primary key: cid

Table Name : message

Data Type	Description
Integer	Id of Each Message
Character	Name of user
Character	Username of user
Character	Name of owner
Character	Property name
	Question asked by user
	Username of owner
	Integer Character Character

Primary key: m_id

Table Name: replay

Fields	Data Type	Description
re_id	Integer	Id of Each Replay
Cname	Character	Name of user
Cusername	Character	Username of user
Pname	Character	Property name
Question	Character	Question asked by user
Answer	Character	Answer given by owner
username	Character	Username of owner

Primary key: re_id

Table Name: feedback

Field	Data Type	Description
fid	Integer	Id of Each Feedback
Cusername	Character	Username of user
Name	Character	Name of user
Ownername	Character	Name of owner
Propertyname	Character	Property name
Feedback	Character	Feedback given by user
username	Character	Username of owner

Primary key: fid

Table Name : propert

Field	Data Type	Description
pid	Integer	Id of Each Property
Img1	Image Field	Image of property
Ownernmae	Character	Name of owner
Propname	Character	Property name
Rooms	Integer	Number of rooms
Rent	Integer	Rent per month
Sqrt	Integer	Square feet
Description	Text	Description about house
Status	Character	Status of house
District	Character	District of house
Place	Character	Place of house
Taluk	Character	Taluk of house
username	Character	Username of owner

Primary key: pid,, Foreign key: username

Table Name: sproperty

Field	Data Type	Description
Sp_id	Integer	Id of Each Property
Img2	Image Field	Image of property
Ownername	Character	Name of owner
Propertyname	Character	Property name
Room	Integer	Number of rooms
Amount	Integer	Total amount of Property
Squarefeet	Integer	Square feet
Description	Text	Description about house
District	Character	District of house
Place	Character	Place of house
Taluk	Character	Taluk of house
username	Character	Username of owner

Primary key: sp_id

Table Name: rbooking

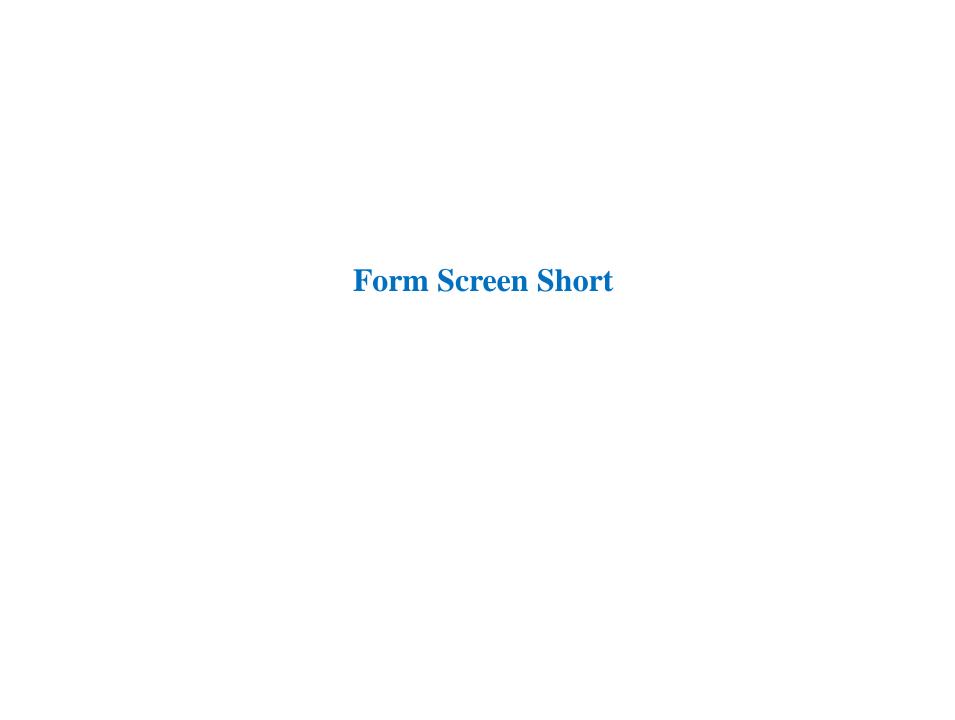

Field	Data Type	Description
rid	Integer	Id of Each Booking
Prname	Character	Property name
Room	Integer	Number of rooms
Rent	Integer	Rent per month
Sqrtfeet	Integer	Squarefeet
Description	Text	Description about house
District	Character	District of house
Place	Character	Place of house
Taluk	Character	Taluk of house
username	Character	Username of owner
Date	Date	Date for site visit
Time	Text	Expected time for site visit

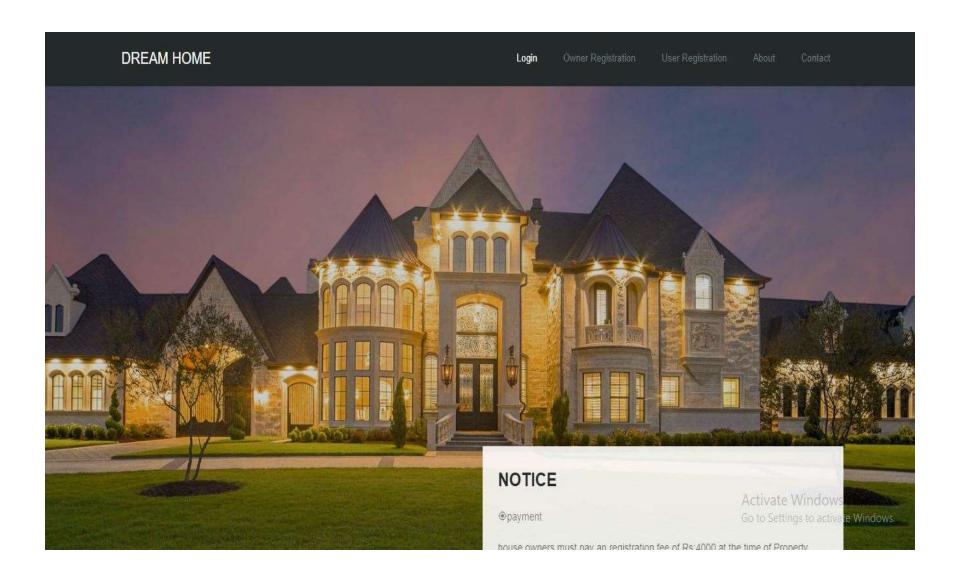

Primary key: rid

Table Name: sbooking

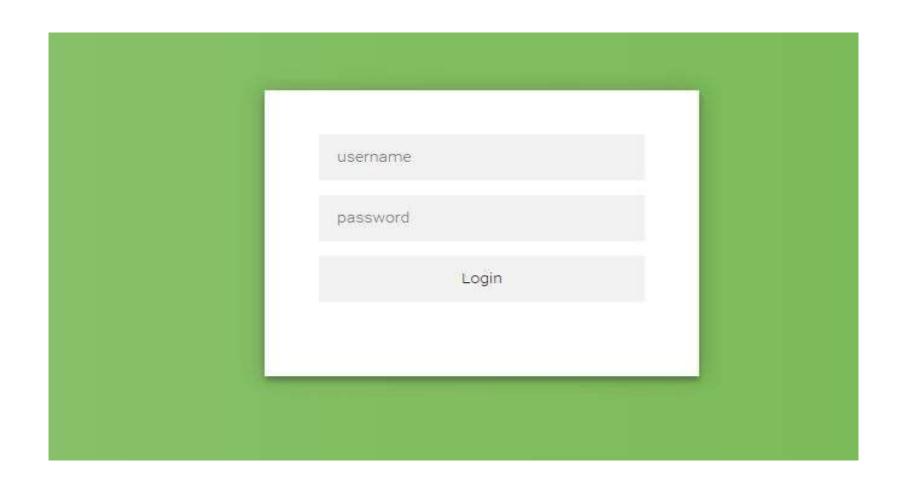

Field	Data Type	Description
sid	Integer	Id of Each booking
Pname	Character	Property name
Rooms	Integer	Number of rooms
Amount	Integer	Rent per month
Sqrtfeet	Integer	Squarefeet
Description	Text	Description about house
District	Character	District of house
Place	Character	Place of house
Taluk	Character	Taluk of house
username	Character	Username of owner
Date	Date	Date for site visit
Time	Text	Expected time for site visit

Primary key: sid
